this volume concentrates on the conceptual boundary through europe which is determined by western and eastern christianity the chapters show that the boundary has never been a stable and defined division but that it was also subject to change and development and a place of encounter and exchange between religions and cultures

the truth is the award winning first book in the oracle institute foundational trilogy it presents a summary of the divine messages sent to us by god through the prophets when studied successively these spiritual lessons form a tower of truth that should not be broken or interpreted along sectarian lines instead these truths should be assimilated into a contemporary spiritual and scientific database and shared by everyone regardless of religious affiliation the truth explores the five primary religions that evolved after the prophets died hinduism judaism buddhism christianity and islam to determine whether these manmade religions have remained faithful to the truth including the primordial truth that god is half masculine and half feminine energy the truth reveals that mankind has built a tower of babel with god s messages moreover these now ancient religions have polarized humanity and brought us to the brink of world war iii the book also includes an objective template for measuring the adequacy of any religion and an appendix that shows the nexus between politics and religion and politics thought human history

an award winning sociologist s fascinating and excellent history of the origins of the great religions from the stone age to the modern age newsweek in discovering god rodney stark surveys the birth and growth of religions around the world from the

prehistoric era of primal beliefs the history of the pyramids found in iraq egypt mexico and cambodia and the great axial age of plato zoroaster confucius and the buddha to the modern christian missions and the global spread of islam he argues for a free market theory of religion and for the controversial thesis that under the best unimpeded conditions the true most authentic religions will survive and thrive many modern biologists and psychologists claim that religion is a primitive survival mechanism that should have been discarded as humans evolved that in modern societies faith is a misleading crutch and an impediment to reason stark responds to this position arguing that it is our capacity to understand god that has evolved that humans now know much more about god than they did in ancient times winner of the 2008 christianity today award of merit in theology ethics

what do we talk about when we talk about religion is it an array of empirical facts about historical human civilizations or is religion what is in essence unpredictable perhaps the very emergence of the new in what ways are the legacies of religion its powers words things and gestures reconfiguring themselves as the elementary forms of life in the twenty first century given the latin roots of the word religion and its historical christian uses what sense if any does it make to talk about religion in other traditions where might we look for common elements that would enable us to do so has religion as an overarching concept lost all its currency or does it ineluctably return sometimes in unexpected ways the moment we attempt to do without it this book explores the difficulties and double binds that arise when we ask what is religion offering a marvelously rich and diverse array of perspectives it begins the task of rethinking religion and religious studies in a contemporary world opening essays on the question what is religion are followed by clusters exploring the relationships among religion theology and philosophy and the links between religion politics and law pedagogy is the focus of the following section religion is then examined in particular contexts from classical times to the present pentacostal revival leading into an especially rich set of essays on religion materiality and mediatization the final section grapples with the ever changing forms that religion is taking such as spirituality

movements and responses to the ecological crisis featuring the work of leading scholars from a wide array of disciplines traditions and cultures religion beyond a concept will help set the agenda for religious studies for years to come it is the first of five volumes in a collection entitled the future of the religious past the fruit of a major international research initiative funded by the netherlands organization for scientific research

differing definitions of religion are fundamental determinant of the debate over religious freedom in the united states argues stronks political science whitworth college looking at 200 years of judicial interpretation she discusses how judges have defined religion in relation to the provisions of the first amendment of the constitution she then turns to the effect the differing definitions have on judicial rulings about the policy areas of religion in public schools regulation of employment decisions by religious institutions and public aid to private institutions such as president bush s faith based initiative she argues that confusion over the parameters of religious freedom stem from the failure of theorists to carefully define the nature of religion annotation copyrighted by book news inc portland or

this will be the standard study on the body in relation to the major religions it highlights the distinctive and unfamiliar ways in which diverse religious traditions understand the body and notes the assumptions and problems of contemporary attitudes to it religion and the body brings together essays by established experts in the history of religion the social sciences and philosophy the result is a rich source for comparative studies of the body its relation to society and to the divine

polls indicate that many if not most americans think that their religion should play some sort of role in the political arena but are they misguided when citizens allow their religious convictions to filter into the political sphere are they acting as bad citizens in a pluralistic democracy such as ours what is the proper relationship between religion and politics religion and democratic citizenship critically examines a variety of proposals to address the question of whether and how religion should influence the activities of the

american public square from public deliberation to voting these proposals commonly fall into two broad types of familiar strategies on the one hand mainstream liberal political theorists like john rawls and others seek to keep religion and politics largely separate on the other hand pragmatists like william james john dewey and cornel west seek to reinterpret the meaning of religion itself so that it can be rendered compatible with democracy religion and democratic citizenship outlines the shortcomings of both of these strategies and aims to reframe the nature of the debate concerning the proper relationship between religion and politics by offering a useful framework for further discussion drawing influence from both socrates and c s peirce the author proposes a model of the deliberative democracy designed to accommodate as many democratically predisposed citizens as possible whether they are religious or not in so doing this book ultimately offers a strategy to accommodate religious participation in the activities of the democratic public square a strategy that enables citizens to employ religious reasoning and meet the epistemic obligations of good deliberative democratic citizenship readers of this book will include researchers interested in philosophy political science law sociology and theology as well as teachers students politicians clergy and concerned citizens

if all the volumes in macmillan s series social history in perspective are as good as hugh mcleod s religion and society in england 1850 1914 it will be a fascinating series and well worth collecting the expository times
